

BRAINSTORMING:

- The shell is dumb... I can make it look like a small pot.
- round would be super cute, but might default to 2D shape if needed
- update: 3D works better with power

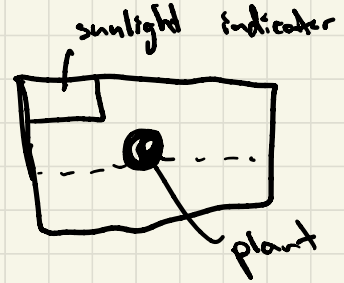

coding:

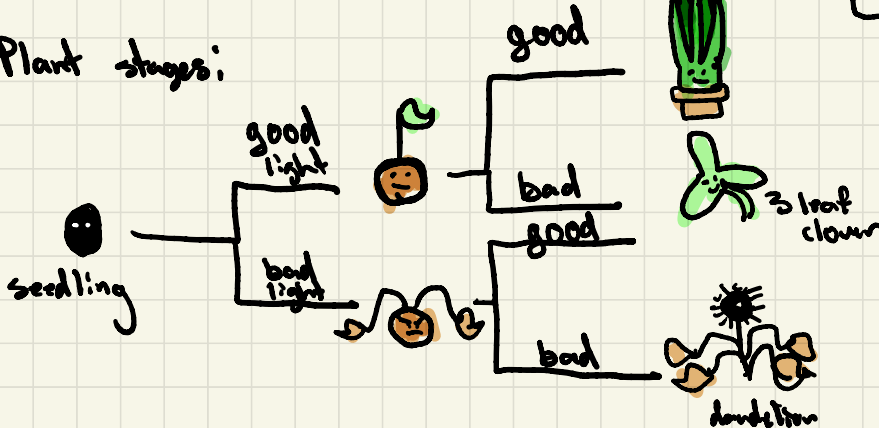

- shouldn't be too hard, while loop, time, sunlight

art:

- 4 frames animation?

Plant stages:

instructions
(press button)

plant

Evolution Time!

New plant?

while True:

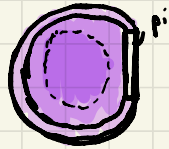

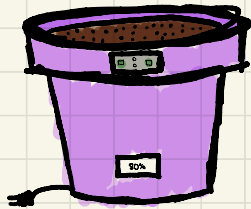

if 1 sec elapsed \Rightarrow change frame

if total-lux \geq next-stage-req \Rightarrow evolve

measure lux

display lux
